FIG. 2A

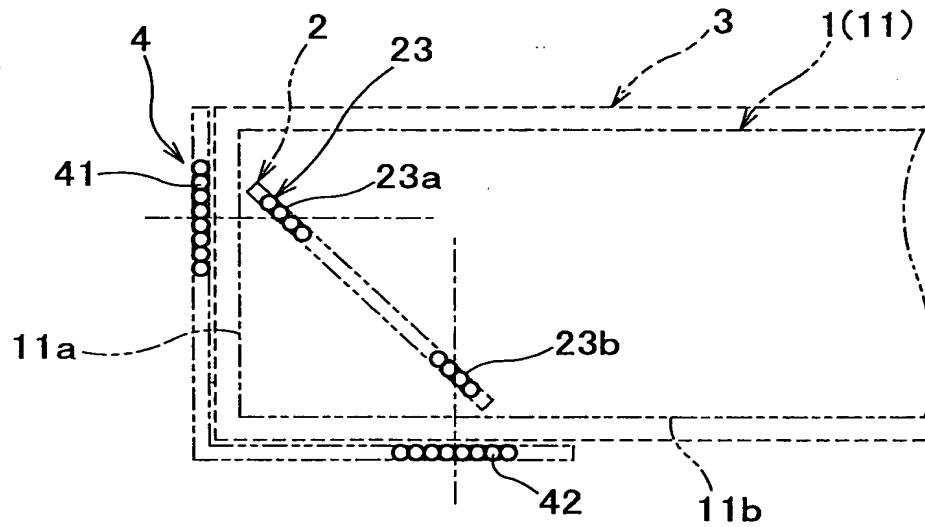

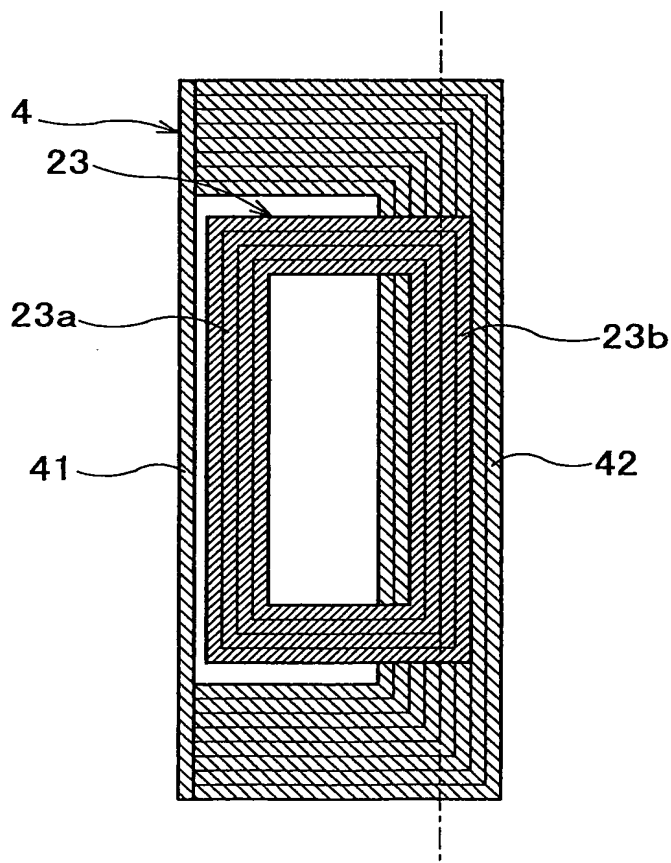

FIG. 2B

The diagram shows two sets of concentric dashed circles representing communication ranges from different locations. The left set has a center point labeled 41, and the right set has a center point labeled 42. Both sets are enclosed by a larger dashed circle labeled E. A vertical dashed line segment connects the two sets, passing through points 23a and 23b. A curved arrow labeled 23 points from the left towards the right. A label 'Range A within Communicated with Cartridge memory' points to the area between the two sets of circles.
